## DETAILED ACTION

### *Election/Restrictions*

Newly submitted claim 2 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Claims 1 and 2 are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case the product as claimed may be used in a materially different process, such as the delivery of a notice.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 2 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The amendment filed on 12 July 2006 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is **non-responsive** (MPEP § 821.03). The remaining claims are not readable on the elected invention because they are directed to the method of using the product.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

### ***Specification***

The amendment filed 12 July 2006 is objected to under 35 U.S.C. 132(a) because it introduces **new matter** into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is **not** supported by the original disclosure is as follows: the "invitations" at pages 2, 3, 4, and 10, and the abstract; and the listing of "rubber band, elastic band, decal, circular adhesive sticker, a non-elastic string, cigar band, and ribbon" to describe the means/method of securing the message at page 5, the abstract, and claim 2. None of this material is found in the originally filed disclosure. Moreover, although the figures are part of the specification, the representative item 38 for the means/method of securing the message is simply shown as a circle, the structure of which is indeterminate and therefore provides no support for the newly introduced descriptions.

Applicant is required to cancel the new matter in the reply to this Office Action.
